BTR-WB2

For all the challenges on the way

Part of the Bridgestone Group

Bandag BTR-WB2

Trailer Regional – Highway

Robust shoulder design

Advanced shoulder geometry for maximum protection against abrasion damage.

Excellent mileage performance

To get even more out of your tyres, and your business.

Proven resistance to irregular wear

World-leading Bandag technologies for genuine, long-lasting performance.

All-season safety

Reliable handling, even in wet and wintery conditions with M+S marking.

Versatile performance

Engineered for both regional and highway use, to boost your flexibility.

On top of the usual deadlines, regional transport operators have to deal with plenty of other challenges: like constantly changing road and surface conditions, unpredictable weather, variable and often heavy payloads, tight corners, ...

And when you think that your tyres are on the frontline of all those challenges, it is little wonder they represent such a significant investment for fleet owners.

Which is why Bandag has developed the BTR-WB2 regional trailer tread, to help you get more return on that investment. And a low total tyre cost per km as a result!

Offering the dual benefits of Bridgestone technology and Bandag's state-of-the-art retreading systems, the robust Bandag BTR-WB2 tread combines outstanding durability with levels of safety and performance that closely match those of new premium trailer tyres.

The Bandag BTR-WB2 is engineered to extend the performance of your tyres across a wide range of applications and operating conditions including both regional and highway usage. The tread's unique shoulder design with innovative "mini-wings" offers outstanding protection against abrasion damage due to regional operations, extending the performance life of your tyres even further.

The Bandag BTR-WB2 is the ideal tread for extending the life of the Bridgestone regional trailer tyres.
