FUELTECH

FuelTech® H-DRIVE 002
FuelTech® H-TRAILER 002

Uncompromising.
Excellent fuel efficiency. Excellent mileage.

Part of the Bridgestone Group

Worldwide Tyre Partner

Bandag FuelTech® H-DRIVE 002 | FuelTech® H-TRAILER 002

Drive | Trailer – Highway

Economical performance

Maximise your fuel savings while reducing CO₂ emissions thanks to very low rolling resistance.

Excellent mileage

Profit from long tyre life thanks to durable construction and good resistance to irregular wear.

Winter ready

Count on reliable handling even in wet and wintery conditions thanks to M+S and Alpine markings.

Long-haul operators face plenty of challenges these days, not least of which a highly competitive marketplace. And with fuel prices constantly on the increase, keeping costs low while standing out from the competition has become essential for survival.

That is why Bandag has developed FuelTech®, an advanced line of premium tyre treads that not only extend the life of your valuable tyre casings but also reduce fuel consumption.

Based on Bridgestone's advanced ECOPIA® H002, the Bandag FuelTech® H-DRIVE 002 and FuelTech® H-TRAILER 002 deliver low rolling resistance without compromising on the long-lasting performance for which Bandag treads are world renowned.

The combination of wide but shallow grooves and Bridgestone's Nano Pro-Tech™ compound maximises block stiffness while minimising internal friction to conserve energy and reduce fuel consumption. In the case of the FuelTech® H-TRAILER 002, innovative Y-shaped grooves also deliver enhanced grip in the wet, while innovative "mini-wings" reinforce the shoulder area for excellent resistance to tears, cracks and general wear.

The Bandag FuelTech® H-DRIVE 002 and FuelTech® H-TRAILER 002 are ideal for extending the life of Bridgestone ECOPIA® tyres.
