

BANDAG[®]
L355

*The robust performer
for rugged conditions*

NO DETOURS.™

Bandag L355

Drive On/Off - Off

High traction you can depend on even on rough surfaces, due to its robust tread pattern.

Long-lasting performance thanks to extra-deep tread and advanced compound technology.

Outstanding durability with high resistance to cutting and chipping both on and off the road.

All-season safety (M+S marked) delivering stable, reliable performance even in wet and wintery conditions.

When the going gets tough, the tough get the exceptional performance and proven durability of Bandag! All our robust retreads for ON/OFF applications are built to perform in a wide variety of terrain: from very soft to sharp and abrasive. And as today's machinery ever increases in engine power and load capacity, Bandag keeps up with the pace of change, employing the latest technologies to ensure maximum resistance to cutting, chipping and bruising, longer tyre life and outstanding performance, whatever the conditions.

Time to unleash one of Bandag's toughest retread yet: the L355! Based on the equivalent Bridgestone L355 ON/OFF tyre for the drive axle, the Bandag L355 extends the life of your premium tyre casings even further.

Its advanced compound resists the cutting and chipping that commonly cuts the life of tyres short in harsh, off-road conditions. Its extra-deep tread also means it can keep on performing, time and time again, whatever the surface conditions. And thanks to the Bandag L355's M+S marked pattern, it will even deliver its extraordinary traction under difficult weather conditions as well.

In short: the Bandag L355 retread is one tough product, built for the most demanding terrains!

The Bandag L355 fits perfectly within Bridgestone's Total Tyre Life philosophy, helping you extend the working life of your tyres and in so doing, generate maximum return on your investment.

Total Tyre Life is built around Bridgestone's premium new tyres and Bandag retreads, the best match to extend tyre life and reduce cost per km.
